Dextron Heatshrink

Bundle Wrapping Machine

LB-119

Bundle Wrappers are most commonly used for food can or beverage packing, but can also be used for almost anything else, in order to save on the cost of cardboard cartons. With different in-feed systems built to suit your products, we can achieve a fully automatic production line which could increase your productivity.

Features:

- Touch screen control panel
- Easy to operate
- Sealing blade is used to seal the film
- Strait in-feed or angled in-feed systems available
