Intermittent Motion Side Sealer

LB-530/LB-800/LB-1100

Automatic Side Sealer with Fixed head motion is the perfect unit for medium to high speed production. The Servo driven sealing motion makes sure that the sealing action is constant. This machine is highly flexible and quick changeovers can be achieved by use of the touch screen controls.

Features:

- Infinite product length
- Centered seal line
- Programmable memory
- Excellent salability of films
- Up to 60PPM product dependent
- Variable speed conveyor
- Excellent perforation system allowing flexibility to change easily
